

		Thursday July 26th, 2018			Friday July 27th, 2018		
		Room 357			Room 357		
Star time	End time	Student	Title	Supervisor	Student	Title	Supervisor
9:00	9:20	Andrea Ngao	An Overview of Usable Security and Privacy for Older Adults	Mohamed	Korbinian Riedl	Empirical studies concerned with the interaction of children and technology	Beat
9:20	9:40	Julian Fazekas-Con	The Role of Personality Traits in Human Computer Interaction	Sarah V.	Luca Schellenb	Possibilities of persuasive system design to increase user's perseverance in language-learning applications.	Christina
9:40	10:00	Jerome Pönisch	Automotive Interfaces for Communicating Driver's State	Sarah V.	Diana Irmscher	Intimate data in relationships: Tracking, sharing, surveillance - personal boundaries?	Hanna & Mariam
10:00	10:20	Benedikt Strodl	Challenges in Behavioural Biometrics	Lukas	Daniel Leimig	An Overview of context-dependent Privacy and Security Protection	Mohamed
10:20	11:00	Break			Tzu-Chien Yen	Deep Learning in Driving Environment	Malin & Daniel
11:00	11:20	Fan Fan	What your voice can tell me: The Application of Voice Biometrics in HCI	Sarah P.			
11:20	11:40	Katharina Rupp	Behavioural Biometrics - Applications and Use Cases beyond Authentication	Sarah P.			
11:40	12:00	Kevin Edmonds	Gaze in Automotive	Kai & Mohamed			
12:00	12:20	Break					
12:20	12:40	Break					
12:40	13:00	Break					
13:00	13:20	Florian Mathis	Context-dependent Privacy and Security Protection	Mohamed			
13:20	13:40	Matthias Mueller	The role of Machine Learning for UX Research	Florian L.			
13:40	14:00	Mengyi Zhang	Current Role of Machine Learning for User Experience Research	Florian L.			
14:00	14:20	Kim Tran	User Modeling in Automated Vehicles	Michael			
14:20	14:40	Xuesong Zhang	Relationships to Digital Systems	Michael			
14:40	15:00	Julia Vehns	Overview of User Modeling with Focus on Automated Vehicles	Michael			
15:00	15:20	Katharina Rogg	Relationship to Digital Systems: Make friends with a robot?	Michael
