Information Visualization Tutorial WS 2009/2010
Dominikus Baur

VII:     11.01.2010 - 14.01.2010

## Task 1 - Literature

Read Plaisant: "*The Challenge of Information Visualization Evaluation*"(Proc. AVI, 2004) (http://www.csdl.tamu.edu/~jeevanj/689iv/papers/paper5.pdf )

We will discuss the paper in the next session.

## Task 2 - Finish your project

a) Finish the coding for your semester project until Thursday. Be prepared to present your project in the upcoming session. Give a live demo and discuss the following points:
- Changes to the original plan
- Rough timeline (and how that changed from your original schedule)
- Features implemented, bugs, things to fix until next week
b) Update your wiki-page to reflect these infos.
