Collaborative Video Annotation in Shared Workspace Environments
Outline

1. University of British Columbia: People and Labs
2. The MyView Project: An Overview
3. Video Annotation in Shared Workspace Environments
4. Questions?
1. University of British Columbia: People and Labs
2. The MyView Project: An Overview
Why MyView?

„Because your view sucks!“

- No personalisation
- No interaction
- No search
- Single view

- Dr. Gregor Miller
The current approach
Model
Model
MyView Annotation Tool
3. Video Annotation in Shared Workspace Environments

+  

=  ?
Guidelines

- Transitions between personal and group work
- Shared access to digital objects
- Simultaneous user actions
- Transition between tabletop and external work
- Appropriate arrangement of users

taken from: System Guidelines for Co-located, Collaborative Work on a Tabletop Display by Scott et al. (ECSCW’03)
In the end...

- Running application with gesture commands
- Time was short, no evaluation performed

My project thesis is the description of the system.
Medieninformatik Oberseminar
Wintersemester 2009/2010
Abschlussvortrag Projektarbeit

Thomas Bauer – 09.02.2010
