

Information Visualization Tutorial WS 2009/2010
Dominikus Baur

IX: 22.01.2010 - 28.01.2010

Task 1 - Literature

Read Viégas et al.: "*Participatory Visualization with Wordle*" (Proc. InfoVis, 2009) (http://researchweb.watson.ibm.com/visual/papers/wordle_final2.pdf)

We will discuss the paper in the next session.

Task 2 - Finish writing up your project

- a) Fill the rest of the template with text. Add one or two figures. Check your references.
- b) Don't forget to choose appropriate keywords and index terms (<http://www.acm.org/class/>, e.g., H.5.2 or H.5.m)
- c) Export a PDF-file and send it to dominikus.baur@ifi.lmu.de.

Task 3 - Upload your project

- a) Do some last minute polishing if necessary.
- b) Upload the source code plus a working demo (i.e., executable file and required example data) to your wiki-page.

All Tasks are due on 27.01.10!
